Health sector emergency report

For the 220th day of aggression

Monday, May 13, 2024

Preparation

Health Emergency Operations Center

Palestinian Ministry of Health - Gaza Strip

05/14/2024

The topics of the

An update, report : The following are the most important topics of the daily report of events, and it reflects a summary of the work processes in the Ministry of Health. comprehensive 24 hours a day, Monday, 05/13/2024 AD.

Report: Summary First

İ Israeli violations against the health system's capabilities and personnel are still continuing, as dozens have been damaged. Health institutions and more than 493 medical personnel and specialists were martyred and 310 were arrested. 155 institutions, as this led to (since the beginning of the aggression And totally The number of targeted health institutions reached (partially 33 hospitals, 53 health centers out of service, and more than 130 ambulances targeted and destroyed. İ The number of people receiving referrals from the Gaza Strip for treatment abroad via the Rafah crossing reached 4,917 out of a total of 9,741 applications submitted. For treatment abroad. were wounded. İ The total daily number of martyrs reached 82 martyrs, while the total daily number of wounded reached 234, half of whom Serious injuries. 24,840 complete data, including martyrs İ The cumulative number of martyrs since the beginning of the aggression reached 35,173, data not met. 79.061 The number of wounded also exceeded more than Ministry of Health, in addition to 10,333 martyrs . wounded İ The number of reports made via the electronic link launched by the Ministry of Health in Gaza on January 5, 2024 to report on martyrs and missing persons - those who remained under the rubble or were buried without reaching hospitals - has reached 3,751 so far. . Adult Y İ The Ministry of Health recorded 31 deaths as a result of malnutrition and dehydration in Gaza and North Gaza since last February, most of . A month 12 them aged. And even then it exceeds İ The Ministry of Health recorded 8 cases of death from dialysis among children until the date of (02/25/2024). İ The bed occupancy rate in operating hospitals reached more than 439%, and the care bed occupancy rate reached Intensive 150%. The Ministry of Health, through its hospitals and medical centers, continues to provide non-emergency services despite the burden And the intense pressure as a result of the brutal aggression, as the total number of operations reached 13,185 in southern hospitals. İ crisis of dialysis patients The evacuation of the Martyr Abu Youssef Al-Najjar Hospital led to the exacerbation of the İ The cumulative number of ambulance services has reached more than 104,947 ambulance services since the beginning of the aggression. İ A severe crisis in ambulances as a result of the destruction of 130 of them and the lack of fuel, which led to the stopping of cars. Ambulances whose engines run on (gasoline), leaving only 19 cars whose engines run on (diesel) remain. Distributed to hospitals.

• Government primary care centers continue to work despite the obstacles, the lack of medicines, suppositories and food, and the lack of security.

And safety, as the total number of visitors since the beginning of the aggression **reached 1,449,844, 85%** of which were classified as emergency services.

• Primary care recorded the number of people infected with infectious diseases, reaching **1,435,438** cases since the beginning of the aggression.

The Martyr Abu Youssef Al-Najjar Hospital was discharged as a result of the two attacks and the danger of the area east of Rafah, which exacerbates

The health situation of more than one and a half million people in the city of Rafah.

• The Supreme Committee for Health Emergencies continues its tasks in managing the health system in coordination with partners and entities

International laboratories and in cooperation with local health institutions.

Secondly, attacks and violations of the health sector

Closing health institutions		Health institutions	first aid	Stay healthy		
Health center	hospital	And totally Partially targeted		Detainees	Injuries	Martyrs
53	32	155	130	310	600	493

• Israeli violations against the health system led to the martyrdom of **493** health personnel and owners.

medical expertise, wounding more than **600** and arresting more than **310** (since the

reached **155** . • beginning of the aggression)and totally The number of targeted health institutions (partially)

The Israeli occupation deliberately targeted health institutions, which led to the removal of **32** hospitals and **53** medical centers.

Medical personnel were out of service due to targeting and running out of fuel.

• Hospitals have lost their treatment and capacity, and medical teams are treating the wounded with very limited capabilities.

The occupation intentionally targeted ambulances, and this led to the destruction of **more than 130** ambulances and their departure from traffic.

the service.

Attachment (1) Names of hospitals that are out of service

****Attachment (2) Names of martyrs of health personnel during the ongoing Zionist aggression**

Massacres against Palestinian families in the Gaza Strip

• The number of families in which massacres were committed is more than **3,176** families.

• The number of massacres of families in the Gaza Strip on Monday (05/13) reached **8** massacres.

Wounded abroad: diversion¹ Third

• The number of people transferred from the Gaza Strip for treatment abroad via the Rafah crossing reached **4,917** out of a total of **9,741** requests submitted for treatment abroad.

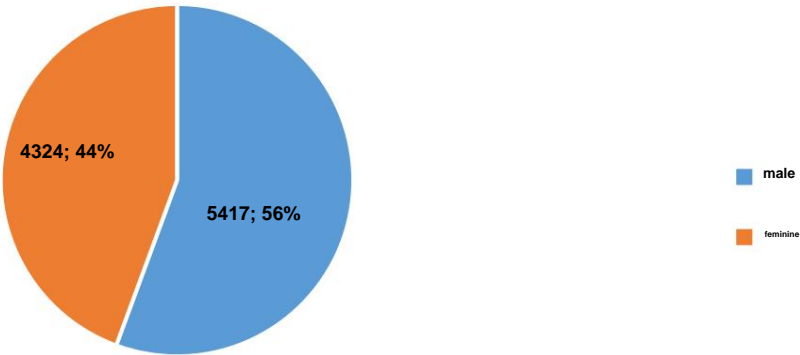

• The number is very small compared to the large number of cases that require operations and follow-up.

An injured person needs to travel for treatment to save a life. • There are **10,000**

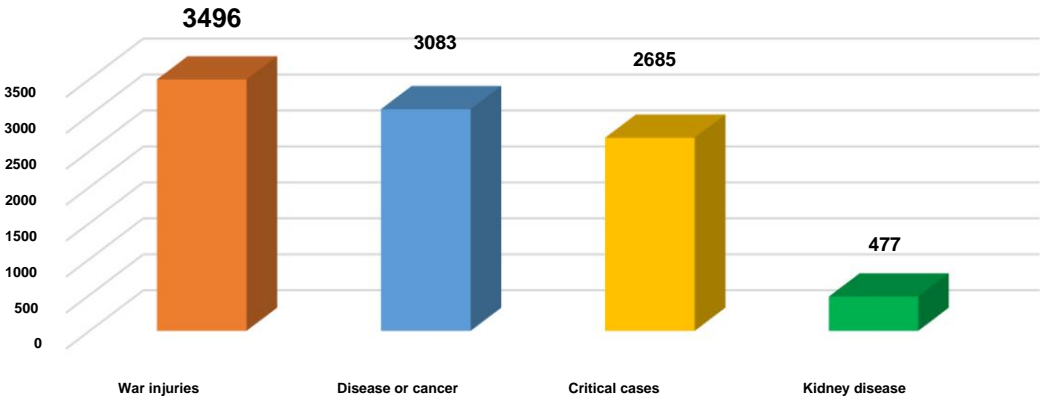

• There are **9,000** cancer patients at risk of death.

ȳ Martyrs whose data is complete. Martyrs listed in the records of the Ministry of Health who were registered through the staff.

The medical team shall do this directly, or through informing the families of the martyrs.

ȳ Martyrs' data is not complete, including (ID number, full name, gender, date of birth, date of martyrdom)

Losing any of this data is considered incomplete data. ȳ These numbers

of martyrs are directly related to injuries resulting from direct attacks of war and do not include deaths

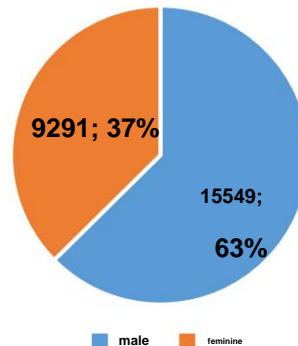

Natural.

ȳ These numbers do not include missing persons and bodies trapped under the rubble.

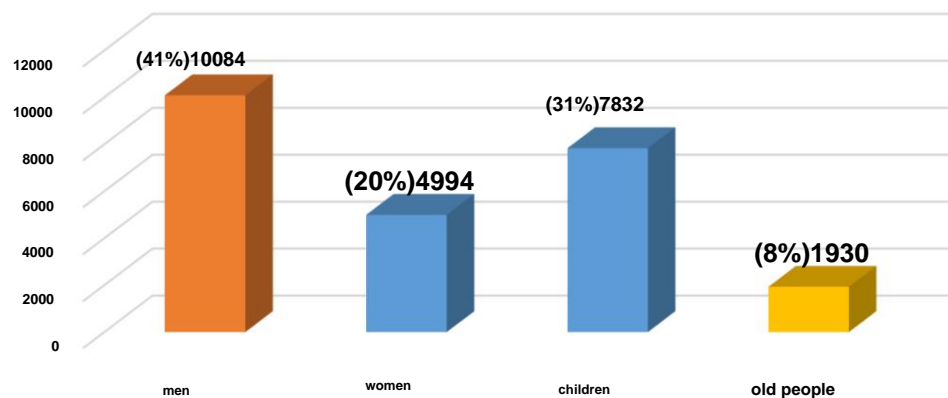

Note

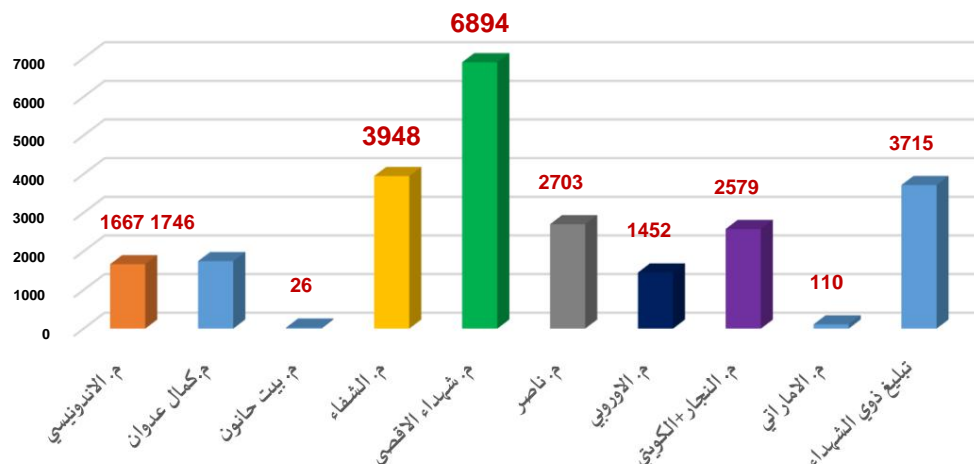

The distribution of martyrs by gender is cumulative

Cumulative distribution of martyrs by age group

Distribution of martyrs by hospital is cumulative

☞ **Martyrs of malnutrition and dehydration**

The death toll from malnutrition and dehydration reached **31** martyrs in the Gaza Strip.

This number of martyrs of malnutrition and dehydration reflects only the number of people arriving in hospitals, as dozens die silently

As a result of famine without reaching hospitals.

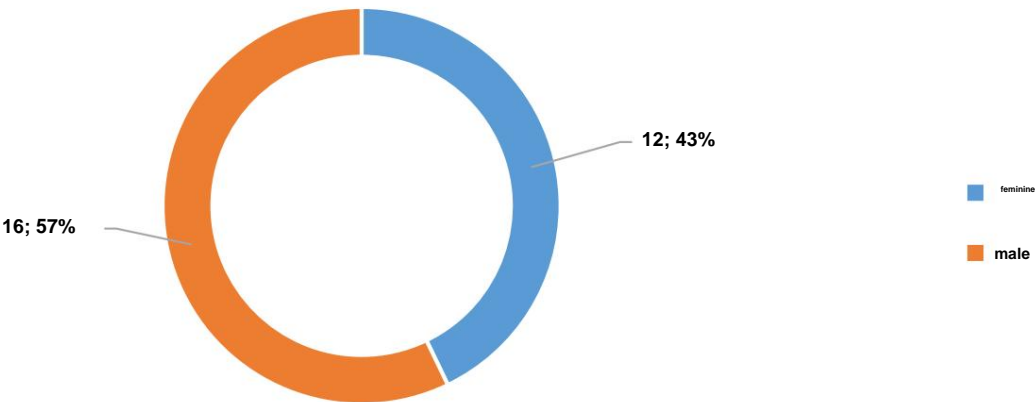

☞ Thousands of children suffer from serious complications that may lead to death as a result of the lack of their own milk in Gaza.

And northern Gaza.

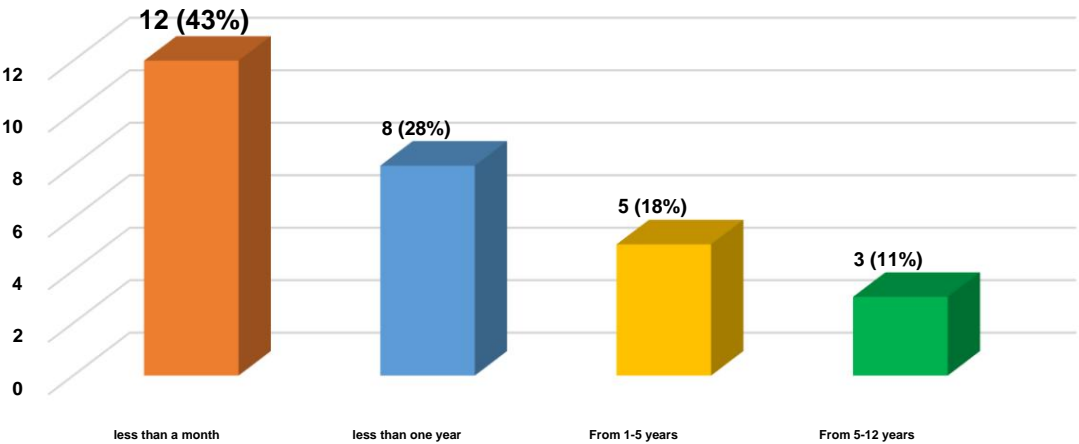

☞ We call on international institutions and children's institutions around the world to provide milk for children in Gaza and North Gaza.

Attached (3) is a list of the names of martyrs of malnutrition and drought in the Gaza Strip

Distribution of martyrs of malnutrition and dehydration by gender

Distribution of martyrs of malnutrition and dehydration according to age group

☞ The Ministry of Health recorded **8** deaths from dialysis in children as of (02/25/2024).

Attached (4) is a list of the names of dialysis deaths of children during the war until the date of (02/25/2024)

Health - Emergency Operations Center

Fifth: Hospitals

Accommodation beds in government hospitals in the governorates

The average bed occupancy in operating hospitals was more than 439%. All hospital beds were converted into surgical beds (obstetrics and internal medicine) and an expansion was made to receive the wounded. To increase the bed capacity of hospitals, early discharge was made for some cases that had no problem with their discharge.

An expansion of additional beds was made in the corridors, tents and schools.

Family occupancy rate % (Total number of patients/total number of basic beds)	Number of injured (maximum events)	Total number occupied beds	Total number of Beds after (before (sick + wounded) Expansion	Total number of beds Basic j expansion)	The hospital

%150	150	10	18	34	12	Euro B Hospital
%150	150	10	18	34	12	Total

Note/

Family occupancy in intensive care units varies greatly due to the large influx of cases and the early discharge of infected people, and this may

It exposes the disease to danger and a strict policy has been prepared for admission to intensive care, so the numbers do not reflect the picture

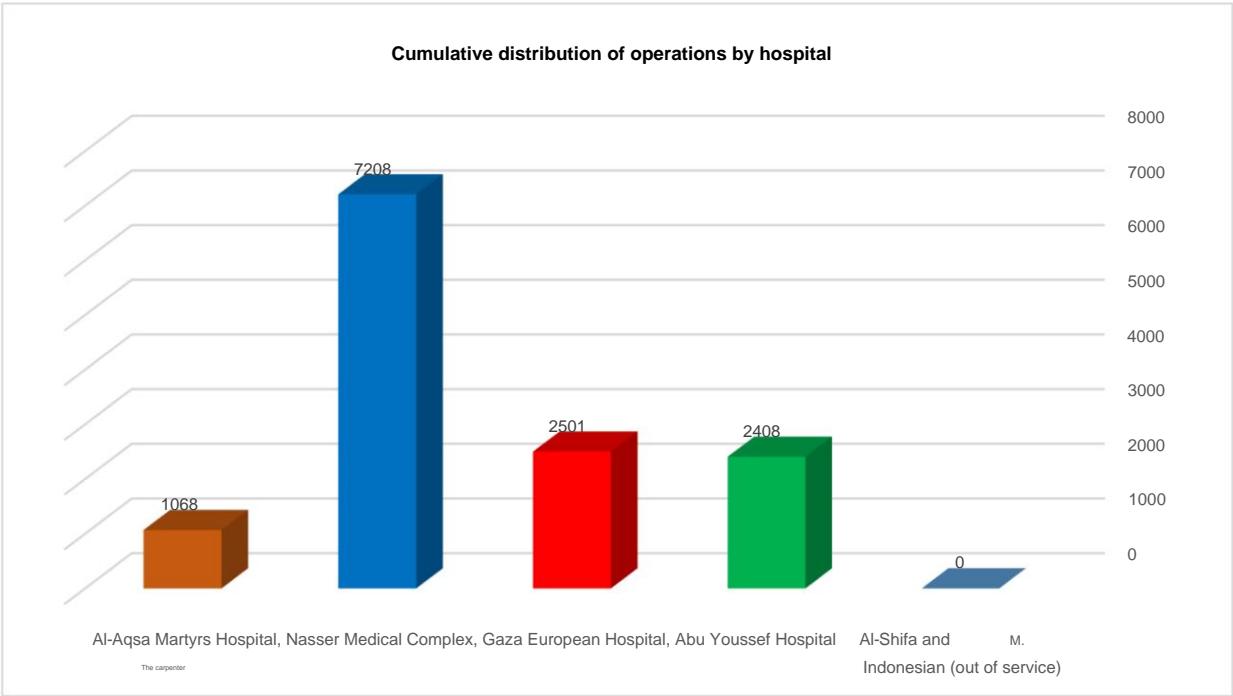

of the current situation. Nasser Medical Complex has run out of many intensive care medications.

Statistics of surgical operations

The total number of daily surgical operations performed was 24 (24 in AD). European Gaza, 0 in AD.

Al-Najjar) and the total cumulative surgical operations amounted to 13,185 operations.

Note

More than one operation was performed on more than one patient in one operating room, and some operations were performed in

the corridors and in the open without

anesthesia. Cases are not emptied from the recovery ward after operations are performed due to the lack of beds for the injured, as

there are dozens of injured people in the recovery rooms.

Operating rooms have run out of nitrous gas, and there is a severe shortage of other medical gases.

Due to the Israeli occupation. Communication loss, Al-Aqsa Martyrs, medical personnel out of service due to the Israeli occupation.
